EMM 12 Instructions

APEC Energy Ministers at **EMM 12** on 13, Oct., 2015 in Cebu, Philippines instructed the **EWG and its related expert groups and centers** to undertake research and development programs on **energy sector resiliency** to disasters and **climate change impacts** to guide APEC Member Economies to promote effective policies and institutional mechanisms including appropriate monitoring and evaluation systems.

Towards an Energy Resilient APEC Community.

COP21 Landmark Conclusions

- **Mitigation** – reducing emissions fast enough to achieve the temperature goal
- **A transparency system and global stock-take** – accounting for climate action
- **Adaptation** – strengthening ability of countries to deal with climate impacts
- **Loss and damage** – strengthening ability to recover from climate impacts
- **Support** – including finance, for nations to build clean, resilient futures
