

## **Workshop on Addressing Grid-interconnection Issues in Order to Maximize the Utilization of New and Renewable Energy Resources**

9:00-9:05	Greeting (NEDO)
9:05-9:25	RE Grid Integration: United State's Perspective
9:25-9:45	RE Grid Integration: Thailand's Perspective
9:45-10:05	RE Grid Integration: Singapore's Perspective
10:05-10:30	Coffee Break
10:30-10:50	RE Grid Integration: Indonesia's Perspective
10:50-11:50	Review of APEC Project Findings (1 of 2) (Simon Troman, IT Power)
11:50-12:30	Next Generation Grid Technology (CRIEPI Dr. Hiroshi Asano invited)
12:30-1:50	Lunch
1:50-2:10	Japan's Policy Direction and Initiatives to Increase Grid Connected Renewable Energy Production (METI)
2:10-2:40	NEDO's Grid Connection Related Research Activities (speaker tbd)
2:40-3:15	Utility Perspective on Increasing RE on Grids (TEPCO or Federation of Electric Power Companies of Japan)
3:15-3:30	Coffee Break
3:30-4:30	Review of Project Findings (2 of 2) (Simon Troman, IT Power)
4:30-4:50	RE Grid Integration: Canada's Perspective
4:50-5:10	RE Grid Integration: Chinese Taipei's Perspective
5:10-5:15	Conclusions, Closing of Workshop (METI)
6:30-9:00	Banquet
