- Economy update (7)
- Governance issues

Issues

- APEC Energy Intensity Goal
 - Similarly to last time, recent trend looks good...
 - If the BAU scenario achieves the intensity goal two years ahead of schedule, do we need to think about making it more ambitious?
 - We request APERC provide more decomposition analysis of Energy Intensity
 - It will be helpful to understand Energy Efficiency situation and improvement potential of different sectors
 - Then, EGEEC will provide recommendations on keep on current target or improve target for whole APEC/Specific sectors.

Issues

- APEC Energy Standard Information System (ESIS)
 - APEC oriented online portal to the CLASP Standards & Labelling Database
 - Updates for APEC economies to the S&L Database
 - All funding exhausted in October 2017
- Request CLASP to provide:
 - Plan of added functions (in-depth analysis of S&L, compare research of S&L) for APEC ESIS, except those functions of CLASP website;
 - Budget for operating ESIS;
 - Self-sustainable business model (On-line advertisement)

Governance Issue

- Successive Chair of EGEE&C
 - We are seeking the successive Chair/Co-Chair of APEC EGEE&C before the end of 2018.
 - Hong Kong, China show their willingness to Nominate Candidate of Co-Chair of EGEE&C
 - Nomination of Co-Chair would be send to EGEE&C secretary and election may take place in EGEE&C 53
 - CHINA will work as Standing Chair of EGEE&C before new Nomination of Chair.

Upcoming Events

- EGEE&C 53rd Meeting
 - March or April, 2019 in Hong Kong, China
 - joint meeting with EGNRET
- Alongside workshop
